Reflections on a Quarter-Century of Cancer Screening Research

Presented by:

Pamela Marcus, PhD, MS, ELS
Epidemiology and Genomics Research Program
Division of Cancer Control and Population Sciences
National Cancer Institute

Monday, April 3, 2017
12:00 – 1:00 pm
1325 Health Sciences Learning Center

Pamela Marcus is an Epidemiologist in the Epidemiology and Genomics Research Program’s (EGRP) Clinical and Translational Epidemiology Branch (CTEB). She is leading efforts in the area of cancer screening that aim to improve cancer screening through a number of avenues, including risk-stratified screening. She is known for her expertise in cancer screening, particularly in the area of data interpretation. Dr. Marcus began her career at the NCI as a Postdoctoral Cancer Prevention Fellow, and from 1997 to 2011 she was a member of the Division of Cancer Prevention’s Biometry Research Group, and joined EGRP in 2013. Dr. Marcus received her PhD in Epidemiology at the University of North Carolina at Chapel Hill in 1997, and her MS in Preventive Medicine – Epidemiology at the University of Wisconsin in 1993.
